

Perspective on Open-Access Publishing: An Interview with Peter Suber

by Reid Cornwell and Peter Suber

Perspectives is a multimedia interview series moderated by Reid Cornwell, who talks with leading thinkers about creative uses of information technology tools to enhance the educational process. Each interview is accompanied by an extended reference list for readers who would like to know more.

In this edition, Cornwell talks with Peter Suber about open-access publishing. Open-access literature is digital, online, free of charge, and free of unnecessary copyright and licensing restrictions. Suber has been a leader in the movement to promote open access as the default publishing mode for scholarly work.
